Cost of Goods Guideline

Superintendent's Guideline No. 01/12

Cost of Goods Guideline

Introduction

This Guideline is issued pursuant to section 268.3 (1) of the *Insurance Act* for the purposes of sections 15 and 16 of the *Statutory Accident Benefits Schedule - Effective September 1, 2010* ("new SABS") and 14 and 15 of the *Statutory Accident Benefits Schedule - Accidents on or After November 1, 1996* ("old SABS").

Purpose

Sections 15 and 16 of the new SABS and sections 14 and 15 of the old SABS require insurers to pay for "reasonable and necessary" expenses incurred by or on behalf of an insured person for the types of goods described in those sections.

The purpose of this Guideline is to provide direction concerning the appropriate interpretation of the term "reasonable" for the purpose of those sections.

Retail Price to Govern

For the purposes of this Guideline, the retail price is the lowest price, including delivery charges (if delivery is required), duties and taxes, that would be payable by or on behalf of an insured person to acquire an item of goods from a source that is available to a member of the general public in Ontario.

Where a retail price exists for an item of goods, a "reasonable" expense for that item for the purposes of sections 15 and 16 of the new SABS and sections 14 and 15 of the old SABS is that retail price, or the price actually paid or payable by or on behalf of the insured person to acquire the item, whichever is lower.

In the event of a dispute over whether an expense for an item is "reasonable", the onus is on the insurer to provide reasonable evidence of the retail price of the item.

Reasonable evidence includes, but is not limited to: an advertisement; written confirmation from a vendor; or any other reliable form of proof of the retail price.

Harmonized Sales Tax (HST)

The applicability of the HST to goods referred to in sections 15 and 16 of the new SABS and sections 14 and 15 of the old SABS falls under the jurisdiction of the Canada Revenue Agency (CRA). If the HST is considered by the CRA to be applicable to an item for which an insurer is liable under those sections, then the HST is payable by the insurer as part of the "reasonable" expense for that item.

This is consistent with the treatment of HST for services subject to the Professional Services Guideline – Superintendent's Guideline No. 01/11 and the Cost of Assessments and Examinations Guideline – Superintendent's Guideline No. 08/10.

Directive concernant le coût des biens

Lignes directrices du surintendant n° 01/12

Directive concernant le coût des biens

Introduction

La présente directive est émise conformément au paragraphe 268.3 (1) de la *Loi sur les assurances* aux fins des paragraphes 15 et 16 de l'*Annexe sur les indemnités d'accident légales - en vigueur le 1^{er} septembre 2010* (la « nouvelle AIAL ») et des paragraphes 14 et 15 de l'*Annexe sur les indemnités d'accident légales - Accidents survenus le 1^{er} novembre 1996 ou après ce jour* (l'« ancienne AIAL »).

Objet

Les paragraphes 15 et 16 de la nouvelle AIAL et les paragraphes 14 et 15 de l'ancienne AIAL exigent que les assureurs versent des indemnités « raisonnables et nécessaires » pour les frais engagés par un assuré, ou en son nom, pour les types de biens décrits dans ces paragraphes.

L'objet de la présente directive est de donner des indications concernant l'interprétation appropriée du terme « raisonnable » aux fins de ces paragraphes.

Préséance du prix de détail

Aux fins de la présente directive, le prix de détail est le prix le plus bas, incluant les frais de livraison (le cas échéant), les droits et les taxes qui seraient payables par l'assuré, ou en son nom, pour acquérir les biens auprès d'une source qui est accessible au public en général en Ontario.

Lorsqu'un prix de détail est assorti à un bien, des frais « raisonnables » pour ce bien aux fins des paragraphes 15 et 16 de la nouvelle AIAL et des paragraphes 14 et 15 de l'ancienne AIAL correspondent à ce prix de détail, ou au prix réel payé ou à payer par l'assuré, ou en son nom, pour acquérir le bien, selon la valeur la moins élevée.

Dans le cas d'un litige concernant le caractère « raisonnable » des frais, l'assureur doit fournir une preuve raisonnable du prix de détail de ce bien.

Une preuve raisonnable comprend, sans s'y limiter, une publicité; une confirmation écrite du fournisseur; ou toute autre preuve fiable du prix de détail.

Taxe de vente harmonisée (TVH)

Il incombe à l'Agence du revenu du Canada (ARC) de déterminer si la TVH s'applique aux biens visés par les paragraphes 15 et 16 de la nouvelle AIAL et les paragraphes 14 et 15 de l'ancienne AIAL. Si l'ARC détermine que la TVH s'applique à des biens pour lesquels l'assureur assume la responsabilité en vertu de ces paragraphes, alors l'assureur doit payer la TVH sur ces biens au titre des frais « raisonnables ».

Ceci est conforme au traitement de la TVH pour les services régis par la Directive concernant les services professionnels – Lignes directrices du surintendant n° 01/11 et la Directive concernant les frais relatifs aux évaluations et aux examens – Lignes directrices du surintendant n° 08/10.

ONTARIO REGULATION 1/12

made under the

ASSESSMENT ACT

Made: December 20, 2011

Filed: January 4, 2012

Published on e-Laws: January 4, 2012

Printed in *The Ontario Gazette*: January 21, 2012

Amending O. Reg. 282/98
(General)

Note: Ontario Regulation 282/98 has previously been amended. For the legislative history of the Regulation, see the Table of Consolidated Regulations – Detailed Legislative History at www.e-Laws.gov.on.ca.

1. Subparagraph 1 xiii of subsection 3 (1) of Ontario Regulation 282/98 is revoked.
2. Subsection 8 (5.3) of the Regulation is revoked.
3. The Regulation is amended by adding the following Part:

PART VIII.1

ASSESSMENT OF RENEWABLE ENERGY INSTALLATIONS

INTERPRETATION

42.1 In this Part,

“installed capacity” means, with respect to machinery and equipment used to produce electricity, the rated maximum output capacity as stated on the nameplate of the machinery or equipment;

“wind turbine tower” means the structure that supports an electrical generator and electrical and mechanical equipment used to convert wind energy into electricity, and includes the base and foundation to which the structure is attached, but does not include,

- (a) any additional land, building and structures, or
- (b) any transformer, transmission or distribution line or other equipment.

RENEWABLE ENERGY SOURCES: SUN, WIND, ANAEROBIC DIGESTION OF ORGANIC MATTER

42.2 (1) This section applies to land on which is installed machinery or equipment used to produce electricity from the sun or the wind or through anaerobic digestion of organic matter, if the production of electricity is ancillary to another use on the same site.

(2) However, this section does not apply in any of the following circumstances:

1. If the land is used to produce electricity by a person who generates, distributes, transmits or retails electricity or another form of energy as the person’s principal business.
2. If subsection 42.3 (1) applies to the land.
3. If section 42.4 applies to the land.

(3) Despite paragraph 1 of subsection (2), this section applies to land used by a renewable energy co-operative within the meaning of the *Co-operative Corporations Act*, the membership of which is restricted to natural persons, to produce electricity.

(4) Despite paragraph 1 of subsection (2), this section applies to land used by any of the following entities to produce electricity, if the primary purpose of the entity is the generation of electricity and if the land on which the generation occurs is valued under subsection 19 (5) of the Act:

1. A sole proprietorship comprised of a person who carries on a farming business within the meaning of the *Income Tax Act* (Canada).
2. A co-operative corporation, all of whose members are persons who carry on such a farming business.
3. A partnership, all of whose partners carry on such a farming business.
4. A corporation, all of whose members or shareholders are persons who carry on such a farming business.

(5) If the installed capacity of the machinery or equipment used to produce electricity from the sun or the wind or through anaerobic digestion of organic matter is 0.01 megawatts or less, the classification of the land (including a wind turbine tower that supports the machinery or equipment) is not changed and the current value of the land (including the wind turbine tower) is not increased as a result of the installation or use of the machinery or equipment.

(6) If the installed capacity of the machinery or equipment used to produce electricity from the sun or the wind or through anaerobic digestion of organic matter is greater than 0.01 megawatts but not greater than 0.5 megawatts, the classification of the land is not changed as a result of the installation or use of the machinery or equipment.

(7) If the installed capacity of the machinery or equipment used to produce electricity from the sun or the wind or through anaerobic digestion of organic matter is greater than 0.5 megawatts and if the land would be classified in a class other than the industrial class, but for the installation of the machinery or equipment, the land remains classified, in part, in that other class and is classified, in part, in the industrial class. The proportion of the land that remains classified in that other class is determined using the ratio,

$$0.5/A$$

in which,

“A” is the installed capacity of the machinery or equipment, expressed in megawatts.

(8) The current value of land to which this section applies shall be determined based on its classification, but the current value of land that is determined under subsection 19 (5) of the Act continues to be determined under that subsection as if the land was used for farm purposes only.

42.3 (1) If machinery or equipment used to produce electricity from the sun or the wind or through anaerobic digestion of organic matter is an ancillary installation on the rooftop of a building or other structure, the classification of the land is not changed and the current value of the land is not increased as a result of the installation or use of the machinery or equipment.

(2) For the purposes of subsection 3 (8) of the Act, the sun, the wind and the anaerobic digestion of organic matter are prescribed as renewable energy sources and if machinery or equipment used to produce electricity from such a source is installed on the rooftop of a building or other structure on land that would otherwise be exempt from taxation, the land remains exempt from taxation, regardless of whether the generation is performed by the owner or a tenant of the property.

42.4 If machinery or equipment used to produce electricity through anaerobic digestion of organic matter is located on land whose current value is determined under subsection 19 (5) of the Act,

- (a) the classification of the land is not changed as a result of the installation or use of the machinery or equipment; and
- (b) the current value of the land continues to be determined under subsection 19 (5) of the Act as if the land was used for farm purposes only.

WIND TURBINE TOWERS

42.5 (1) Wind turbine towers are prescribed as generating station structures for the purposes of section 19.0.1 of the Act.

(2) The current value of a wind turbine tower is determined by multiplying \$40,000 by the installed capacity in megawatts of the generator attached to the wind turbine tower.

(3) For the purposes of clause 19.0.1 (1) (b) of the Act, the assessed value of a generating station structure that is a wind turbine tower is determined by multiplying \$40,000 by the installed capacity in megawatts of the generator attached to the wind turbine tower.

SYSTEMS FOR ENERGY CONSERVATION OR ENERGY EFFICIENCY

42.6 The following rules apply if an active solar heating or cooling system or a ground-sourced geothermal heating or cooling system has been installed on, erected or placed upon, in, over, under or affixed to land:

1. If the system would result in an increase to the value of the land, the current value of the land shall not reflect that increase and the land must be instead assessed as if it contained a non-renewable energy system that is typically found in similar lands in the vicinity.

2. If the system would result in a decrease to the value of the land, the current value of the land shall reflect that decrease and the land must be assessed at the lesser value.
4. **The heading before section 45.4 and section 45.4 of the Regulation are revoked.**

2. The Regulation is amended by adding the following section:

Deficit recovery fee

4. (1) This section applies in respect of a class of municipal hazardous or special waste if Stewardship Ontario had an accumulated deficit related to that class as of December 31, 2011.

(2) Stewardship Ontario shall, on or before April 1, 2012, determine the amount of a fee to be paid by a steward designated under the Act in respect of a class of municipal hazardous or special waste mentioned in subsection (1) by applying the following:

$$A = D \times B \div C$$

where,

A = the fee to be paid by the steward,

D = Stewardship Ontario's accumulated deficit related to the class of municipal hazardous or special waste as of December 31, 2011.

(3) For the purposes of subsection (2), the quantity of material supplied by a steward is determined by applying the method set out in the rules made under clause 30 (1) (g) of the Act for reporting that quantity to Stewardship Ontario.

(4) Unless a rule has been made under clause 30 (1) (c) of the Act prescribing times when a fee determined under this section is to be paid, the fee shall be paid in four equal instalments, with an instalment to be paid on or before each of the following dates:

1. May 15, 2012.

3. The Regulation is amended by adding the following sections:

Quarterly fees

5. (1) Stewardship Ontario shall, no later than 90 days following the end of each fiscal quarter, determine the amount of a fee to be paid in respect of that fiscal quarter by a steward designated under the Act in respect of a class of municipal hazardous or special waste by applying the following:

$$A = D \times B \div C$$

where,

D = the costs related to the class of municipal hazardous or special waste during the fiscal quarter in respect of which the fee is to be paid.

(2) For the purposes of subsection (1),

- (a) the quantity of material supplied by a steward is determined by applying the method set out in the rules made under clause 30 (1) (g) of the Act for reporting that quantity to Stewardship Ontario; and
- (b) the costs related to a class of municipal hazardous or special waste must not exceed the sum of the amounts described in subparagraphs 1 i, ii and iii of subsection 30 (3) of the Act that were incurred in relation to the class.

(3) Unless a rule has been made under clause 30 (1) (c) of the Act prescribing times when a fee determined under this section is to be paid, the fee shall be paid no later than 180 days following the end of the fiscal quarter in respect of which the fee is required to be paid.
